# What is Digital Storytelling?

Digital storytelling is the modern expression of the ancient art of storytelling. Digital stories derive their power by weaving images, music, narrative, media, and voice together, thereby giving deep dimension and vivid color to characters, situations, experiences, and insights.

# Building Skills

## **Technology Skills:**

learning to use a variety of hardware and software

## **Organizational Skills:**

Managing the scope of the project, the materials used and the time it takes to complete the task

## **Writing Skills:**

Formulating a point of view and developing a script

## **Research Skills:**

documenting the story, finding and analyzing pertinent information

## **Presentation Skills:**

Deciding how to best present a story to an audience

## **Communication Skills:**

Working within a group and determining roles

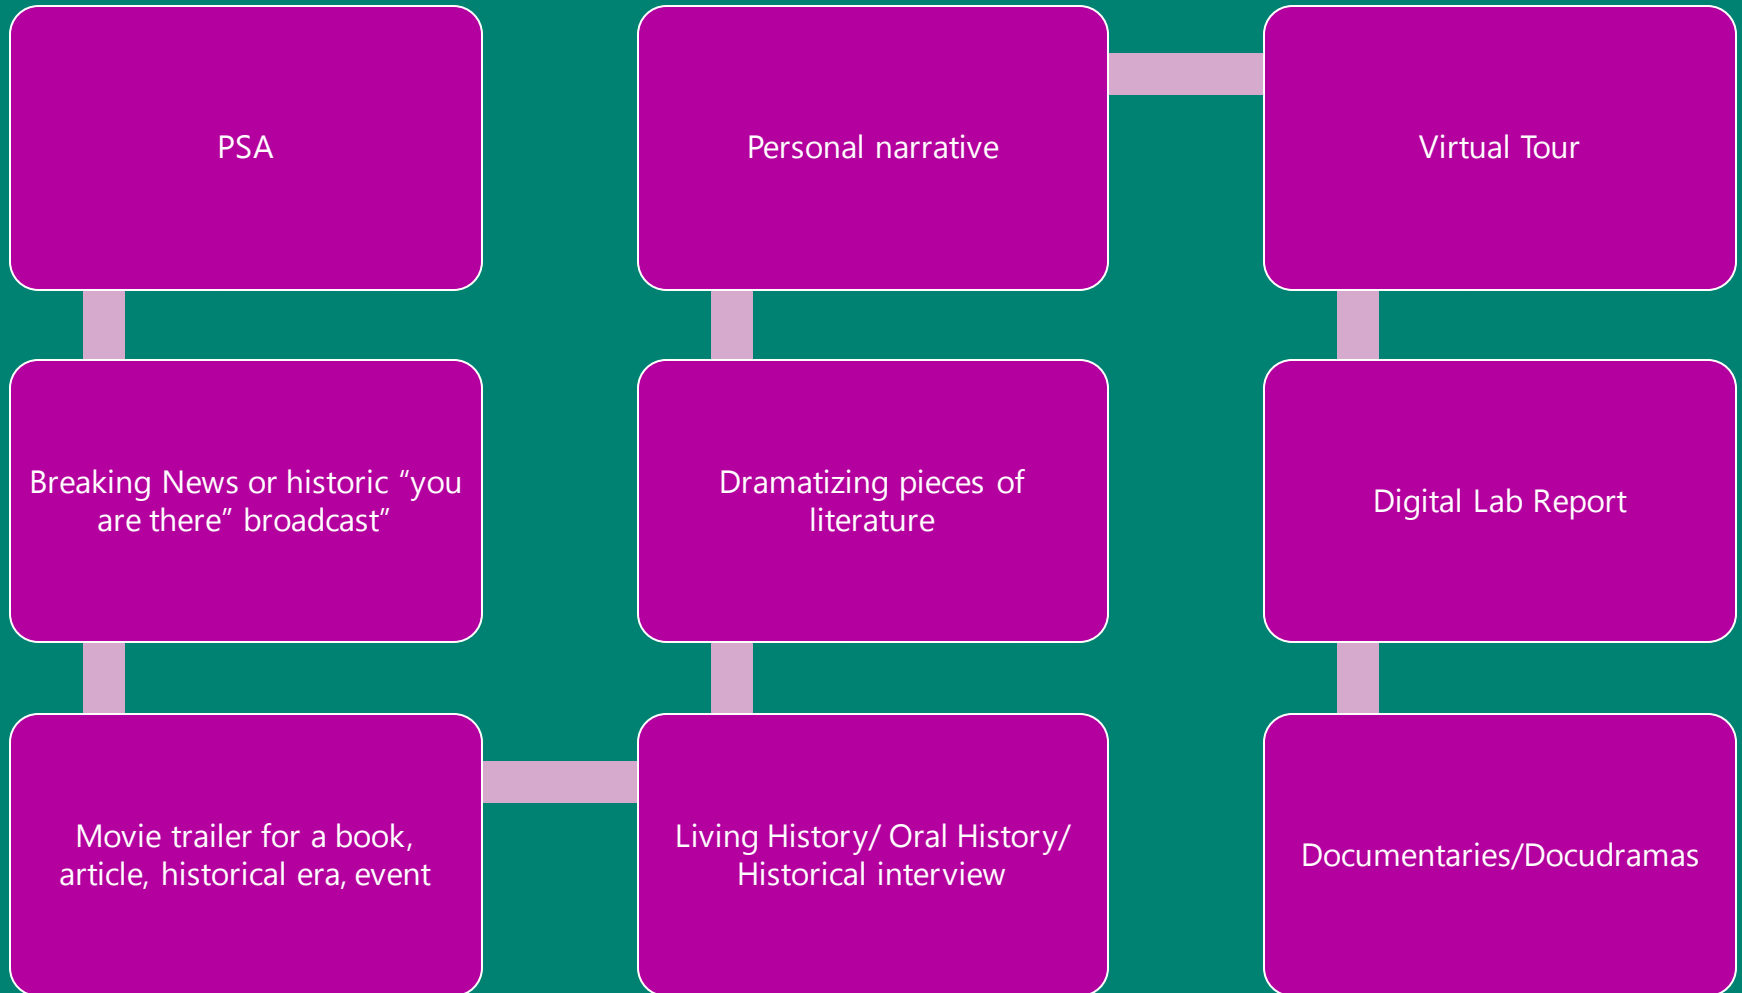

## **Problem-Solving Skills:**

Learning to make decisions and overcome obstacles at all stages of project

## **Assessment Skills:**
